## Tusmore House, Oxfordshire

*An award winning new build in the Classical tradition described as a 'Palladian Gem' by the press. Darke & Taylor was responsible for integrating a highly complex electrical scheme into the fabric of this substantial 3,800 sq metre residence.*

*"The house is on the scale of the great houses of the 18<sup>th</sup> Century."*

### Project Scope:

- Mains Infrastructure
- Small Power Installation
- Specialist Lighting & Controls
- Fire Alarm
- Security Systems
- External Lighting Scheme
- Mechanical Plant Controls Wiring
- Maintenance

### Details:

Darke & Taylor Ltd were appointed as the electrical services specialist on this important and unique project. The project was ideally suited to our highly regarded and trained team of electrical specialists who were able to apply their many years' experience of installing complex electrical schemes into prestigious buildings to deliver the exceptional standard of quality and finish required for such a property. D&T worked closely with other quality craftsmen and tradesmen and the completed project won an Architectural Award from The Georgian Group.
